

POSITIVE BRANDING

ABOUT US

Positive Branding has been supplying printed clothing for over 25 years. Printing in our own UK factory enables us to keep our prices low. Every garment is quality controlled throughout the production process and inspected prior to despatch. We always meet our customers' deadlines! You are welcome to visit us, take a tour of the factory and browse in the showroom.

ETHICAL

Our environmental and ethical responsibilities are at the heart of our business. Likewise, we require our suppliers to release information about their labour practices and manufacturing process.

WHY USE US?

- Low prices
- Guaranteed delivery date
- In-house factory
- Established over 25 years
- Quality control systems
- Ethical principles
- Fast turnaround
- Showroom

SCREEN PRINTING

DIRECT TO GARMENT PRINTING

VINYL PRINTING

SCREEN PRINTING

TRANSFER PRINTING

TRANSFER PRINTING

PRINTING

HOW

There are four print methods. We will advise you which is the best process to meet your requirements. Printing (subject to type) can be from tiny to A3 in size, single colour to full colour and photographic reproduction.

SCREEN PRINTING – Ideal for larger runs, from one colour to full colour.

TRANSFER PRINTING – Ideal for intricate multi colour designs or for short runs. Maximum print area is A4.

DIRECT TO GARMENT PRINTING – only suitable for white garments. Ideal for multi-colour designs where a transfer print is not suitable.

VINYL PRINTING – Ideal for placing individual names/ numbering onto the garment – suitable for promotional and special events including product launches, stag/hen parties.

USES

Perfect for one-off special events, promotions, corporate clothing, uniform, workwear, sports clubs and associations.

ARTWORK/SET-UP

We can work with most digital formats. Once we set-up your design the data is securely stored for your use forever. There is a one-off set-up charge subject to print type.
